

Quick Splice Connector

Description

Endings to be inserted by connecting two cables, without the need to strip them. The metal insertion in the connector is designed to cut through the insulation and create a connection between the two wires, without stripping.

| CODE | REFERENCE | SECTION (mm ²) | W (mm) | L (mm) | COLOR |
|------------|-----------|----------------------------|--------|--------|--------|
| 7030600015 | TLR-1.5 | 0.25-1.50 | 20 | 32.0 | Red |
