

Triple Spiral Polyester Fish Tape

Description

The Arvi triple spiral polyester fishtape combines flexibility, durability, and efficiency, making it the ideal solution for installations in demanding environments. Manufactured from high-quality polyester, it features a triple spiral design that not only significantly reduces friction during cable pulling but also prevents bending, providing greater assurance of successful operations. This model includes interchangeable tips, such as a flexible spring for added versatility and an M5 eyelet that ensures practicality and efficiency.

Product Specifications

PROPERTY	STANDARD VALUE
Material	Polyester
Color	Black
RAL	9005
Durability	High
Ø Diameter (mm)	5,8
Ø Tube (mm)	30-50
Break Load (kg)	450
Pulling Resistance (kg)	160
Turning Radius (mm)	100

Compatible Terminations

CODE	DESCRIPTION	REFERENCE	DIAMETER (Ø)	INFORMATION
7081104106	Eyelet M5 Ø7 mm	OM5-7	5,8	For more details about these products, please refer to the corresponding technical datasheet.
7081105807	Flexible Spring with Eyelet M5 Ø7 mm	MFOM5-7
